Designed to Work for You

Your HVAC System

- Over 50% of homes do not have a 24 VAC power c-wire, but many Wi-Fi thermostats REQUIRE one.
- For most installations, Sensi thermostat DOES NOT require a 24 VAC power c-wire to install.

To confirm that it's right for your home, use the Sensi Compatibility Tool at sensicomfort.com/compatibilitytool

Your Smart Home Platform

Simply plug in and pair your Sensi thermostat to the platform of your choosing to seamlessly control all of your home connected devices.
