Control from Anywhere

Use the intuitive mobile app to set, change and program your home comfort—from across the room or across the country.

Extensive Compatibility¹

Sensi works with the HVAC equipment found in over 95% of homes². Make sure it will work for you at sensicomfort.com/compatibility.

Designed for DIY Install

Get up and running quickly with thoughtful design features like illuminated easy-click terminals, a built-in level and our proven in-app instructions.

Geofencing

Sensi uses your smartphone's location to make automatic adjustments to your temperature settings.

Energy Saving Features

With features like geofencing, flexible scheduling and remote access, you can save money without compromising your comfort.

Easy-to-Use Touchscreen

The high-definition color display features easy-to-read temperatures and intuitive menus that are accessible with just a touch.

Flexible Scheduling

Only you know what makes you truly comfortable, so we let you create and customize your 7-day thermostat schedule to fit your lifestyle.

Smart Alerts

Even when you are not at home, Sensi detects extreme temperatures and humidity levels and lets you know if your system isn't working properly.

Automatic Upgrades

As existing features are enhanced and new features are released, your thermostat software is kept up-to-date automatically.
