### A word from Boris Gabin

#### Plantweb Digital Ecosystem helps you See, Decide, Act and Optimize

Effective digital transformation is about results, and Plantweb can help you get them. Plantweb's portfolio of proven, industry-based solutions is designed to drive real performance improvement in the areas of production, reliability, safety and sustainability.

Whatever challenge you're tackling, Plantweb has you covered with solutions that easily integrate into your operations and quickly deliver ROI so you can navigate your digital transformation journey with confidence, ease and speed.

**In our Plantweb Digital Ecosystem eBook, you'll discover real solutions that:**

- Unlock data to inform fresh insights into your operations
- Transform your data into actionable information
- Drive improved decision-making by your personnel

- Establish effective data management to accelerate digital transformation

## Selected Articles, Product Highlights and Videos

### Article

#### Improve Carbon Sequestration with Proper Valve Selection

Carbon capture and storage, often referred to as carbon sequestration, is attracting substantial investments worldwide due to environmental, social and governance initiatives. In the United States, the Department of Energy recently announced \$3.7 billion of funding to sequester carbon dioxide in enhanced oil recovery (EOR) and other projects. But as our article in the March 2023 issue of Hydrocarbon Processing magazine, titled [Control Valves for Carbon Sequestration Applications](#), relates, these projects are challenging.

### Product Highlight

**Get to Know the Latest Generation of Non-Contacting Radar Level Transmitters**

Non-contacting radar technology is perfect for level measurement of particularly viscous, aggressive or corrosive media, as well as simpler applications needing a compact and easy-to-install solution. Emerson's latest generation of **Rosemount™ Non-Contacting Radar Level Transmitters** is powered with unique **80GHz FMCW Fast Sweep Technology**, providing a highly reliable, robust measurement across many applications. Visit our website or watch our latest video to learn more.
