# Maximize uptime and reduce your operational costs of your equipment

DeltaV™ SaaS SCADA Asset Protect
Cloud-based fixed asset management system
to help increase safety, profits and sustainability.

DELTAV™

EMERSON™

DeltaV™ SaaS SCADA Asset Protect for Anytime, Anywhere Access and Control of Fixed Assets

Maximize safety and uptime while you reduce your operational costs by optimization and control of your field equipment with DeltaV SaaS SCADA Asset Protect.

This advanced Health, Safety and Environmental (HSE) software application enables operators to monitor and maintain all fixed assets in a single system.

Advanced insights provides operators the opportunity to implement stronger preventive maintenance practices that prevent downtime and unnecessary spending while reducing staff time spent in the field while improved compliance with HSE requirements.
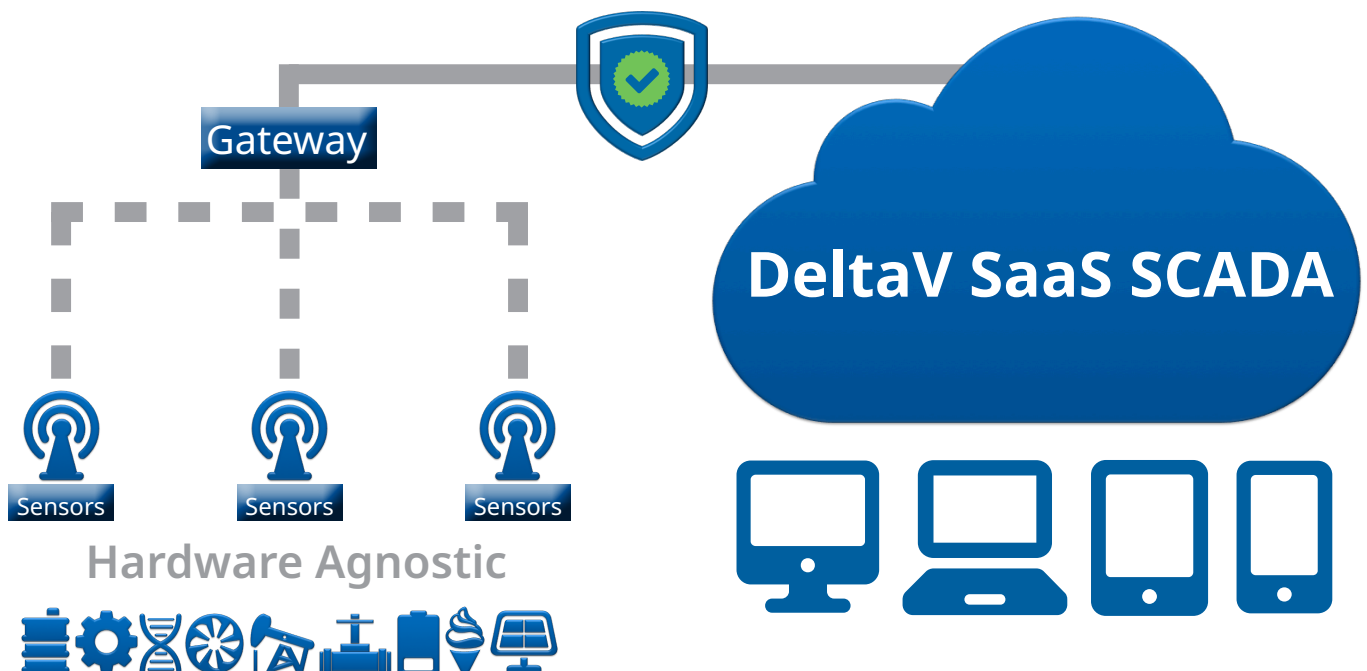

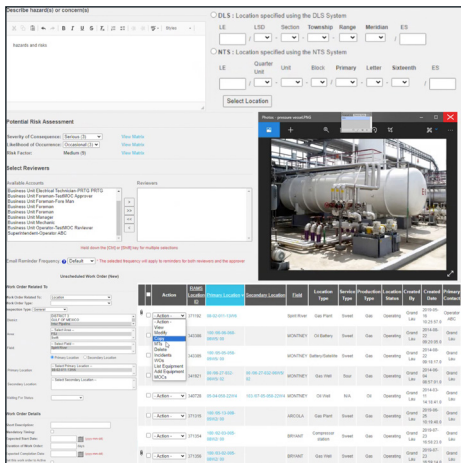

Easily track all of your equipment

Proactively schedule repairs and be audit ready

DeltaV SaaS SCADA Asset Protect includes several unique, easy to use modules that can be used individually or in combination to improve efficiencies across your operation to increase your production, profits and sustainability.

Monitor & control assets in the field – anytime, anywhere.

DeltaV SaaS SCADA

Sensors   Sensors   Sensors

Hardware Agnostic

Streamline Work for Fixed Assets, Preventative Maintenance and Health, Safety, and Environment

- Add, edit, track and report on equipment for status and condition
- Schedule work orders & easily set reminders with escalations
- Equipment linked to location & preventative maintenance schedule
- Report maintenance activity for audit trail
- Review, approve and document change requests and compliance
- Manage inventory and license programs
- Track incidents, procedures, specs & safety manuals
- Attach documents, pictures, and checklists to exact equipment
- Move and transfer equipment location with all historical data

Effortless, always up to date software enables you and your people to better focus on more impactful business decisions

You may even decide to layer DeltaV SaaS SCADA onto your own current system to enable your team more mobility, as a secondary SCADA system for a transitional time-frame until your people are comfortable using a new system, or even as a secondary back-up to add another layer of security in the event your in-house system fails.

Our SaaS is hardware agnostic, utilize hardware you may already own, and still get decision making data

You decide on what sensors and hardware equipment are best suited for your situation. All you do is tell us what you want for data and analytics to be reported and we'll do the rest— in just a few days. This delivers your people with the actionable insights they need to make better operating decisions quickly and efficiently.

Software as a Service

Fuel the power to unlock the most value from your data

Easily and seamlessly access current, user-friendly data for real-time, accurate decision-making gains. Our software applications are built for industrial challenges and are delivered as a service to ensure you effortlessly always have the most up to date version, security and full support. Increase safety, profitability and operational excellence with our software solutions for better performing assets, streamlined compliance, and optimized resources.

Acquire, manage, and analyze your operational data while ensuring compliance

- Unlimited users, no seat or site licenses required
- 24/7/365 customer support
- Effortless application upgrades
- Complete user training

- Secure anytime, anywhere access
- Data center
- Business continuity
- Infrastructure management
