

**Easily Capture All Your Daily
Production Data in One Platform**

DeltaV™ SaaS SCADA Field Capture

Capture all your daily production data in one, user-friendly platform to increasing production, profits and sustainability.

DELTA V™

EMERSON™

Daily production data from the field to the boardroom for complete production visibility

Easily see accurate, daily production at each asset, facility, field and across the entire organization with DeltaV SaaS SCADA Field Capture from anywhere at anytime in our secure cloud-native IIoT platform.

Effortlessly track performance to target and quickly run variance reports. Know exactly what's causing downtime, so you can take faster and more exact action to lower downtime and increase productivity.

- Single source of data truth
- Custom sort, display & reporting
- View, edit, share, analyze, and export

Customize the data entry experience using customized run orders to seamlessly match your daily work-flow.

Continuous system updates to introduce new functionality based on your suggestions and input are completed automatically to all end users without any downloads.

Monitor & control assets in the field – anytime, anywhere.

Easily access current production, input valuable operational data, create custom forms, instantly update systems, and directly control your field devices through an app designed specifically for industrial challenges.

Collect and analyze daily operational data and replace complicated, manually created spreadsheets

Daily operational data in one, user-friendly platform, from multiple sources with anytime, anywhere access. Reduce field to office reporting errors and save hours of manual data entry every month by eliminating complex and confusing spreadsheets.

- Advanced Reporting
- Instant access to over 100 reports
- Custom reports
- Report subscriptions
- Advanced analytics
- Target & track performance

Combine different types of data sets to enable DeltaV SaaS SCADA Field Protect to balance your meter data, tank readings and truck tickets (just to name a few).

Easily back allocate or prorate your measured facility level production to track downtime and utilize the detailed site note feature to increase internal communication levels.

Utilize the hardware you may already own, and still get decision making data - We're hardware agnostic

You decide on what hardware equipment and devices are best suited for your sites and situation. Just tell us what you want for data and analytics to be reported and we'll do the rest—in just a few days. This delivers your people with the actionable insights they need to make better operating decisions quickly and efficiently.

Software as a Service

Fuel the power to unlock the most value from your data

Easily access current, user-friendly data for real-time, accurate decision-making operational gains. Our software applications are built for tough industrial challenges and are delivered as a service to ensure you always have the most current version, secure storage and full support.

Increase profitability and sustainability with our SaaS SCADA for better performing assets, streamlined compliance, and optimized resources.

- Unlimited users, no seat licenses required
- 24/7/365 customer support included
