- DeltaV SaaS SCADA
- DeltaV SaaS SCADA Mobile
- DeltaV SaaS SCADA with Pipeline Protect

## CUSTOMER

GRIT Oil & Gas II follows the formation of GRIT Oil & Gas in 2017 and the successful exit of this company in early 2019.

GRIT team achievements include:

- Acquisition and integration of over 50 transactions,
  - Totaling \$4B+; divestments of \$8B+
- Successful development in nearly every major US basin
- Drilling and completing over 1,000 wells
- Extensive horizontal experience in multiple resource plays
- Experienced in complex facility construction & midstream ops
- Operates >300 wells in Dimmit & Maverick counties
  - San Miguel, Eagle Ford, & Austin Chalk formations

## CHALLENGE

GRIT's vision of operations defined by foresight to ensure they are able to address challenges even before they emerge needed a flexible tech partner to support not only the gains of actionable data, but also the ability to easily scale and grow with their needs, while making it all effortless from a stance of security and updates with strong development to push their operations to a new level of efficiencies to meet high targets and increases.

**“At GRIT we’re set on a future where operations are defined by foresight, ensuring challenges are addressed even before they emerge. Central to this vision is our commitment to empowering our diverse team, arming them with the right tools, and fostering an environment of collaboration. Coupled with the adaptability of DeltaV SaaS SCADA, we’re strategically positioned for growth, seamlessly integrating new assets and navigating the evolving industry landscape.”**

Jon Allison, Director of Corporate Development  
GRIT Oil and Gas II

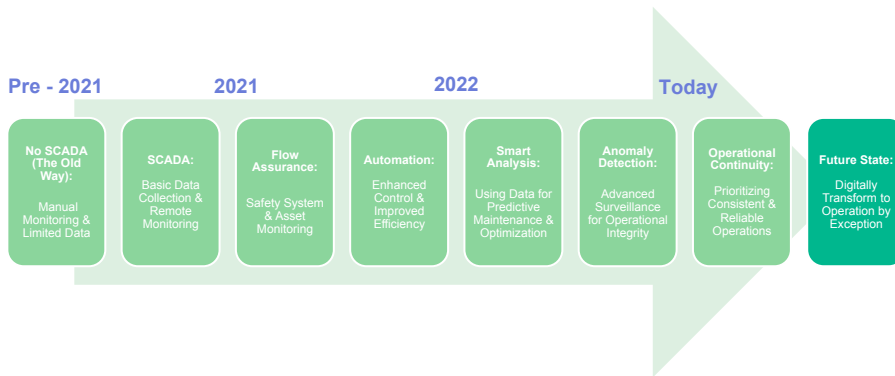

## SOLUTION

**Seamless Integration:** Successfully integrated with 10+ third-party technologies, creating a comprehensive operational ecosystem.

**Custom Analytics:** Tailored algorithms exclusive to Grit's operations, serving insights specific to the needs of Grit supplied with data through our state-of-the-art integration.

**Customizable Modules:** Allows teams to personalize dashboard views based on their specific needs, ensuring relevant data is always front and center.

**Holistic View:** Aggregated views from diverse data sources to show a comprehensive snapshot of operations, including well performance and anomaly detection.
