

**Montagehinweis | Notes on assembly | Indication de montage**

Drehzylinder mit Drehwinkeleinstellung  
Rotary cylinder with rotation angle setting  
Vérin rotatif avec réglage précis de l'angle de rotation

## **TRR**

**1829930147/06.2015**, Replaces: 10.2003, DE/EN/FR

1

**DE** Drehwinkeleinstellung durch Verdrehen des Verstellringes (1).

Dabei müssen die Halsmuttern (2) der Zuganker gelöst und mit dem Moment  $M_a$  wieder angezogen werden.

Der Drehzylinder ist im Auslieferungszustand auf den max. Drehwinkel eingestellt (Verstellring herausgedreht).

**EN** Rotation angle is set by turning the adjusting ring (1).

In so doing, the tie rod nuts (2) have to be released and re-tightened with torque  $M_a$ .

The rotary cylinder as delivered is set to the max. rotation angle (adjusting ring unscrewed).

**FR** Réglage de l'angle de rotation en tournant la bague de réglage (1).

Les écrous à collet du tirant (2) doivent alors être desserrés et être à nouveau serrés avec le couple  $M_a$ .

Le vérin rotatif est livré réglé sur l'angle de rotation maximum (bague de réglage desserrée à fond).
