

Keep Your Ovation™ System Current with New Technology

Ovation™ Evergreen Program

To keep pace with advancing technology, Emerson offers the Ovation™ Evergreen program - a component of our lifecycle services portfolio. Ovation Evergreen provides an efficient method to continually keep your Ovation system up-to-date and avoid costly as well as time consuming major system retrofits or upgrades.

The Ovation Evergreen program was designed to replace covered network components, controllers, workstations and system software with the latest Ovation releases. Evergreen solutions are completely customized to your needs in a manner that reduces the impact on your yearly budget.

Ovation Evergreen provides long-term support to keep your Ovation system technologically current. It offers predictable costs while avoiding the much higher expense of system disruption, downtime and complete replacement. The planned migration of outdated system components continually increases the capacity and functionality of your system. Ovation Evergreen permits you to get the most out of your investment by incorporating new technology as it becomes available.
