

# Rosemount PDF 53

## Digital Display Application

The Rosemount PDF 53 is the Digital Display application used with the PDU 51 Panel Display Unit. It offers you an additional display unit dedicated to specific cargo tank measurements, such as the level or pressure readings.

- Measurement Value presentation
- Status indication
- Optional alarm indication
- Customized layout
- Broad system compatibility

## Description

The Digital Display application for the PDU 51 panel display allows monitoring of specific cargo tank measurements that are of extra importance to your daily operations.

The application can be configured to either show a single measurement on a 4.3" display panel, or multiple measurements on a 7" display panel.

The display shows current value of the measurement as well as unit of measurement. The status is also indicated so that you can always be confident that the data is valid.

Optionally, the display can also indicate alarms based on alarm limits set and stored in the Workstation.

The display is always customized for the particular vessel and selected measurement.

The Digital Display function can be used together with the following cargo monitoring systems, and sailing vessels can easily be upgraded with this function:

- Rosemount CMS
- Rosemount CTS
- Rosemount TankRadar STaR
- Rosemount TankRadar G3
