To whom it may concern:

This letter is to notify you that the following software is being discontinued:

ProLink® II – Configuration Tool

Effective from January 30th 2014, a last time buy period has started, such that Micro Motion will cease to accept orders for the software described above once this period has expired. The last time buy period is set to 3 months, such that the last date to quote is March 31, 2014, and the last date for accepting orders is April 30, 2014.

The ProLink II configuration software suite was superseded in 2011 by ProLink III, which includes all the ProLink II functionality as well as supporting all Micro Motion Coriolis, Density and Viscosity meters.

Should you require further information, please contact your sales representative.

Sincerely,

A handwritten signature in black ink that reads "Simon P H Wheeler".

Simon Wheeler
Product Line Business Manager – ProLink, Micro Motion
