

Comfort and Control at Your Fingertips

The Warm Tiles™ ES and ESW WiFi ColorTouch thermostats features a 3.5” interactive color display that makes programming your floor warming system fast and easy. This dual-voltage thermostat can be used with Warm Tiles or other manufacturers’ floor warming systems at either 115 or 230 Vac and loads up to 15 Amps total system current.

Our Warm Tiles ES and ESW WiFi ColorTouch thermostats offer extra flexibility for any lifestyle by allowing you to set up to six programming periods per day. They are engineered to save energy while keeping your floor warming system at your preferred temperature, year after year.
